Dear Ms Adigun

**Re: Review of Plenty Valley International Montessori School (Reg. No. 1770) by the Victorian Registration and Qualifications Authority (VRQA)**

Thank you for the submission of documentation, provided on 30 October 2015 by Mr Peter Patsis, Business Manager, in relation to the VRQA review of Plenty Valley International Montessori School (school). The documentation was provided in response to the VRQA's letter dated 1 October and consisted of student enrolment and financial information.

I note from the submission that the school reported an enrolment of 79 students in August 2015. I note also that the school has carried out a cost review for 2016 which has resulted in a decision to implement several staff redundancies and a reduction in expenditure. The budget for 2016 forecasts an increased net profit for the school's legal entity of \$106,000 which is in line with the school's Business Plan.

The school has demonstrated that its governance structure is enabling it to effectively manage its finances.

I am pleased to advise that the school has met the requirements of the VRQA review process, and the review of the school's compliance with the minimum standards for registration is now concluded.

I remind you that the school must continue to comply with the minimum standards for school registration in accordance with the *Education and Training Reform Act 2006*. The VRQA may at any time arrange for a review and evaluation of the operation of a school to determine whether the standards are being met.

Thank you for your cooperative approach to the review process.

Yours sincerely

**LYNN GLOVER**  
Director
